Teaching

I taught for 37 years at the University of Iceland, both in the Department of Linguistics and in the Department of Icelandic. I have taught more than 30 different courses – undergraduate courses on Phonetics, Phonology, Morphology, Syntax, Corpus Linguistics, Linguistic Methods, and Composition, and graduate courses on Phonology, Morphology, Syntax (both synchronic and diachronic), Corpus Linguistics, and Natural Language Processing.

I have been active in developing teaching material and teaching methods. I have written textbooks on Icelandic phonetics, generative phonology and generative morphology for use at the university level. I was also a pioneer in distance education at the Department of Icelandic (and in fact at the University as a whole) in 1999. Towards the end of my teaching career, I experimented with flipped teaching and with using MOOCs from other universities as an integrated part of my own courses.

Research

In the beginning of my research career around 1980, I worked mainly on syntax. I have published several papers on Icelandic syntax, especially diachronic and historical syntax, but also some synchronic papers. In the past few years, I have been a member of a number of collaborative projects and networks on syntactic variation, such as [Variation in Syntax \(Tilbrigði í setningagerð\)](#), [ScanDiaSyn \(Scandinavian Dialect Syntax\)](#), [NORMS \(Nordic Center of Excellence in Microcomparative Syntax\)](#), [NLVN \(Nordic Language Variation Network\)](#), and [N'CLAV \(Nordic Collaboration on Language Variation Studies\)](#). I have also written articles and textbooks on Modern Icelandic phonetics, phonology and morphology.

In the 1990s, my work on Old Icelandic corpora led me towards corpus linguistics. I was chief editor of the *Concordance to the Icelandic Family Sagas*, which was published on a CD in 1996. Around the turn of the century, I became a pioneer in language technology at the University of Iceland and have since then been project leader or steering group member of several Icelandic language technology R&D projects. The largest of these was [Viable Language Technology Beyond English](#) which received a three year Grant of Excellence from the Icelandic Research Fund in 2009. I was the PI of that project.

In recent years, I have become increasingly interested in language variation, language contact, and language change, and the effects that radical sociological and technological changes might have on the Icelandic language, especially within the digital domain. Together with Professor Sigríður Sigurjónsdóttir, I am the PI of a project entitled [Modeling the Linguistic Consequences of Digital Language Contact](#), which received a three year Grant of Excellence from the Icelandic Research Fund in 2016.

Furthermore, I have cooperated with companies from the software and telecommunications industry and with people from the disabled community on various projects. Recently, I was a member of an Icelandic team which cooperated with Google on the building of an Icelandic speech recognition system for Android smartphones, and cooperated with the Icelandic Organization of the Visually Impaired and Ivona Software (now subsidiary of Amazon) on a new text-to-speech system for Icelandic.

Since the turn of the century, I have taken active part in Nordic/Baltic cooperation in language technology. I have participated in several projects and networks in this area, including [Nordic CLARIN Network](#), [NorDokNet](#), [NLTNet](#), [Nordisk Netordbog](#), [Tværsproglig søgning på tekster og ordbøger](#), [Nordtalk](#) and [Nordic Treebank Network](#). I was Icelandic representative on the Board of the [Nordic Graduate School of Language Technology \(NGSLT\)](#) from 2004-2009. From 2011-2013, I led the Icelandic part of the EU funded [META-NORD](#) project, which was a part of [META-NET](#). Since November 2018, I am CLARIN National Coordinator for Iceland at [CLARIN-IS](#).

Participation in externally funded LT R&D projects and networks:

- 2015-2018 Project leader, *Icelandic Gigaword Corpus*
- 2014-2017 Network member, *Nordic CLARIN Network*
- 2011-2013 Leader of Icelandic part, *META-NORD*
- 2010-2012 Steering group member, *Icelandic Text-to-Speech System*
- 2009-2011 Project leader, *Viable Language Technology beyond English*
- 2007-2008 Project leader, *Context-sensitive Spell Checking*
- 2006-2007 Steering group member, *Icelandic Text Screening*
- 2004-2013 Steering group member, *Balanced Tagged Corpus of Icelandic*
- 2004-2006 Steering group member, *Ragga – a Text-to-Speech System for Icelandic*
- 2004-2006 Steering group member, *ISLEX – Scandinavian Web-based Dictionary*
- 2003-2005 Network member, *Nordic Treebank Network*
- 2003-2004 Steering group member, *Hjal – a Speech Recognizer for Icelandic*
- 2002-2004 Project leader, *Grammatical Tagger for Icelandic*
- 2001-2003 Network member, *Nordtalk* (Corpus based research on spoken language)
- 2001-2005 Network member, *NorDokNet* (Nordic Documentation Centres in LT)
- 1999-2002 Steering group member, *ÍSTAL* (Corpus of spoken Icelandic)

Grants and awards

Principal Investigator:

- 2017 *Training university students in language usage and writing* – Project Grant, Áslaug Hafliðadóttir Memorial Fund (ISK 4,000,000)
- 2016-2018 *Modeling the Linguistic Consequences of Digital Language Contact* – Grant of Excellence, Icelandic Research Fund (ISK 117,500,000)
- 2015 *Icelandic Gigaword Corpus* – Project Grant, Icelandic Infrastructure Fund (ISK 4,950,000)
- 2015 *Teaching Material and Software for Teaching Icelandic Language Technology* – Project Grant, Áslaug Hafliðadóttir Memorial Fund (ISK 4,000,000)
- 2009-2011 *Viable Language Technology beyond English* – Grant of Excellence, Icelandic Research Fund (ISK 43,485,000)
- 2007-2008 *Context-Sensitive Spell Checking* – Project Grant, Icelandic Research Fund (ISK 3,100,000)

- 2006 *Shallow Parsing of Icelandic Text* – Project Grant, Icelandic Research fund (ISK 3,800,000)
- 2002 *Development of Training Material for a PoS Tagger* – Project Grant, Icelandic Language Technology Fund (ISK 6,000,000)
- 1991 *Concordance to Sturlunga Saga, Íslendingabók and Landnámabók* – Project Grant, Icelandic Science Fund (ISK 650,000)
- 1989 *Concordance to the Icelandic Family Sagas* – Project Grant, Icelandic Science Fund (ISK 500,000)

Co-Proposer:

- 2012-2014 *Syntactic Mutation: The Case of Icelandic* – Project Grant, Icelandic Research Fund (ISK 27,720,000) – PI Þórhallur Eyþórsson
- 2012-2014 *Language Change and Linguistic Variation in 19th-Century Icelandic and the Emergence of a National Standard* – Project Grant, Icelandic Research Fund (ISK 33,593,000) – PI Ásta Svavarsdóttir
- 2011-2013 *META-NORD* – Project Grant, ICT PSP Programme, Grant Agreement No 270899 (€ 2,250,000) – Coordinator Andrejs Vasiljevs
- 2005-2007 *Variation in Syntax* – Grant of Excellence, Icelandic Research Fund (ISK 29,600,000) – PI Höskuldur Þráinsson

Other grants:

- 1983-2015 More than 20 smaller grants from The University of Iceland Research Fund and The Icelandic Student Innovation Fund

Awards and honors:

- 2018 The annual *Jónas Hallgrímsson Prize* for promoting and strengthening the Icelandic language, especially Icelandic Language Technology
- 2017 *The Order of the Falcon*, awarded by the President of Iceland
- 2016 The University of Iceland annual *Excellence in Teaching Award*
- 2006 First prize in the competition *Uppúr skúffunum* arranged by the Research Liaison Office at the University of Iceland, for the project *Context-Sensitive Spell Checking* (with Hrafn Loftsson and Sigrún Helgadóttir)
- 1996 The annual award of *Hagþenkir*, association of Icelandic non-fiction writers, for *Concordance to the Icelandic Family Sagas* (with Bergljót S. Kristjánsdóttir, Guðrún Ingólfssdóttir, and Örnólfur Thorsson)
