

Minutes from WG3  
8 Sept. 2017, Bolzano, Italy  
COST CA16105

- An STSM call for WG3 regarding the state of the art review of existing platforms will be announced after the MC meeting in Bolzano; it is expected to happen at University of Iceland and it would be for 2-3 weeks
- Another STSM would target user-profiling (most likely a survey), figuring out our target groups and their habits.
- It would be interesting to figure out what type of learners are expected, what features and designs they favour
- Work plan for this year was introduced
- There is only a general work plan for the whole grand period, which will be adjusted according to the development of action itself
- Contribution from all WGs to the planning of WG3 is very welcome
- WG3 would like to collaborate with all WGs
- Everyone is welcome to suggest topics for discussion
- Brainstorming chart will be added to ILIAS where all participants can contribute with their ideas to the development of WG3 and the whole action enetCollect
- The key-note speaker Carmelo Ardito delivered a talk on user-oriented design strategies and mentioned among other things also examples of different projects and ways how to collaborate
